YOUR 'Triumph' DEALER

EASY-SAFE CUTTING BY OFFICE PERSONNEL

Triumph-Jr.

Now, a junior model has been added to the "TRIUMPH" line of precision-built, sturdy, easy-to-use, office paper cutters.

Features a mechanical innovation that eliminates the turning of a wheel to clamp and unclamp the paper before and after each cutting. One simultaneous motion clamps and cuts the paper. Then, release motion of the cutting handle unclamps the paper automatically. Special SAFETY Feature! The SAFETY latch locks and unlocks automatically, while using both hands in operating . . . one on the clamp handle and the other on the blade handle. So SAFE, so easy and so economical to operate!

No other paper cutter, in this size, offers so many higher priced features at such a low price. Note the specifications chart! Compare the features, the quality and then look at the price. You'll agree that the TRIUMPH Jr. has the really great features that you'll want in your cutter. Even the adjustment of the knife is the easiest of all cutters. A simple hand turn of a knob, located on the left side, raises and lowers the knife whenever necessary (no tools needed).

It's portable . . . it's light-weight . . . any office personnel can move it anywhere and use it immediately. Attractive neutral green shade blends with every modern office decor.
